Harmar Water Authority
200 Pearl Ave.
Cheswick, PA 15024
Phone: 724-274-7383
Fax: 724-274-7358

Please be advised that Harmar Water Authority will be conducting routine water main and fire hydrant flushing in your area starting the week of October 26th.

This program is critical for maintaining water quality, clearing natural mineral iron/manganese deposits from the pipes, and ensuring fire hydrants are fully operational.

Water may temporarily appear yellowish, brown, or rusty. This is caused by sediment being stirred up in the water mains and is normal during flushing operations.

If you experience prolonged discoloration, low pressure, or have questions about the schedule, please contact the Water Department at 724-274-8028.

Thank you for your patience and cooperation while we maintain our system.
